ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: PLANT VIRAL MOVEMENT PROTEIN GENES

(57) Abstract: This invention relates to an isolated nucleic acid fragment encoding a viral movement protein. The invention also relates to the construction of a chimeric gene encoding all or a substantial portion of the viral movement protein, in sense or anti-sense orientation, wherein expression of the chimeric gene results in production of altered levels of the viral movement protein in a transformed host cell.
